

# **ADVANTAGE** **SUMMARY PROFILE**

## **POWERING THE FUTURE: CRI'S IMPACT ON AND PARTNERSHIP WITH THE DEPARTMENT OF ENERGY**

At CRI Advantage, our family values and long-standing relationship with the Department of Energy are at the heart of everything we do. With over three decades of experience in the energy sector, our current ownership has been operating the company since 1995, delivering innovative solutions to support DOE's mission. We have worked in synergy with DOE facilities and sites, DOE Power Marketing Administrations, and utility companies, deploying and supporting cutting-edge technology to drive efficiency and value across the DOE complex. With nearly 20 years of experience delivering contracts for the DOE, we have developed an intimate knowledge and a deep understanding of the organization's unique challenges and opportunities.

Our commitment to maintaining the highest standards of security and compliance is demonstrated through our NIST 800 Series compliant network, which supports some NL IT operations in our offsite CRI facility. At CRI Advantage, we are proud to be trusted to perform work beyond IT organizations, directly supporting mission programs and Work for Others. We invite you to join us in our endeavor to drive innovation and deliver exceptional value for the Department of Energy and its critical operations.
